CAUSE NO. 41741

FILED

JAN 29 2003

INDIANA UTILITY
REGULATORY COMMISSION

You are hereby notified that on this date the Indiana Utility Regulatory Commission has caused the following entry to be made:

In an Order issued in this Cause on August 15, 2001, the Commission approved a CTA transfer from Fox Chase Farms Utility, Inc. to Centurian Corporation, and also approved a related asset purchase agreement.

In a letter dated July 8, 2002, the proprietor of Centurian Corporation, John B. Curley, informed the Commission that Centurian took possession of the utility in December 2001. A copy of that letter is attached to this Docket Entry.

As there appear to be no other pending matters to be resolved in this Cause, the presiding officers now determine this Cause should be closed.

IT IS SO ORDERED.

INDIANA UTILITY
REGULATORY COMMISSION

Your Honor:

I apologize for the delay in responding to your request, but I did not receive your letter from the previous owner's attorney until June 13th, 2002. Please see attached copy of the post-marked envelope. Due to an outstanding tax obligation owed by the previous utility owners, I was unable to take possession of the utility company until December 2001. This outstanding tax issue caused postponement of the required winter work on the utility company.

To bring you up to speed, I have met with all of the homeowners in Fox Chase Farms and they have requested a similar system, which we all feel, will be a better system for Fox Chase Farms. I have initiated a schedule that is enclosed. I met with Mr. Miller of the State Board of Health in Indianapolis and he has assured me that if they received the plans by July 10th, 2002, he will review them by July 15th, 2002. After he reviews and approves the plans, we will be able to award the contract and start immediately.

Sincerely,

John B. Curley
Proprietor
